## COMPANY INTRODUCTION

“ **Severe Service Valve** ”

Dominant severe service valves company in the global energy industry

### Core Values

- Commitment to Quality-High Quality
- High Technology Products with Professional Expertise

### Vision

Mission to provide the best technology products and severe service solutions

### Major Histories

- 1984** Established Company
- 2002** SK Energy / Korea Hydro & Nuclear Power Qualified Equipment Supplier
- 2008 ~ 2013** Awards & Certification Outstanding Exporter, Prime Minister's Prize

### Main Business Activities

- Innovative Technology Products
- Design to meet Customer Requirements
- Performance guarantee and Quality Assurance

### Strength

KD VALVE provides an excellent anti-wear performance when subjected to extreme temperatures, high pressures, corrosion and erosion.

### Target Customers and Brand Recognition

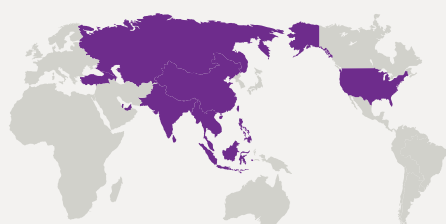

The harshest industry environment conditions, such as leakage, corrosion, erosion and unexpected shut down or delay in plant, result in significant revenue losses.

### Reason for Being Selected as a World-Class Product

KD VALVE has attained a great number of technology development and certifications and has risen to a leading company in the valve industry.

## MARKET INTRODUCTION

### Target Markets and Reason

Serve to enhance reliability and safety the

harshest environments in the global energy industry. Engineering company, builds the latest and best products and provides the best solutions.

### Consumption Trends

High-performance valves have strict quality standards and require high technology and reliability from production companies to

meet the technical conditions that can be used in harsh environments.

### Future Market Entry Plan

Demand for high-performance products is increasing due to the increase in energy demand in the global industrial environment and increased environmental regulations.
